

# Track Your Trip, On Your Finger Tip.

The complete school transport platform with live GPS tracking, geo-fenced offline QR boarding, and automated RTO compliance.

 AES-256 Encrypted

 Google Maps Platform

 Offline-First Tech

 DPDP & RTO Compliant

## THE CHALLENGE

# School Transport is Broken.

Every day, thousands of parents in Bhubaneswar worry about their children's commute. Schools struggle with outdated, paper-based systems that create liability gaps and operational chaos.

### Parent Anxiety

Parents make frantic phone calls every day to check if their child has boarded the bus or reached school safely.

### Paper-Based Attendance

Manual registers are unreliable, easy to falsify, and offer zero real-time visibility to schools or parents.

### Compliance & Liability

Expired insurance, missing permits, lapsed PUC certificates—schools face massive RTO liability exposure.

### Poor Network Connectivity

Most tracking apps fail in low-network zones, leaving drivers without tools precisely when they're needed most.

### No Fleet Visibility

Admins have zero awareness of where vehicles are, whether routes are being followed, or if schedules are on time.

### Communication Gaps

No unified channel for transport announcements, leave requests, or emergency alerts between parents, schools, and drivers.

## TripOnTip Solves All of This.

A single, integrated platform that replaces paper registers, eliminates phone calls, automates compliance, and works even without internet connectivity.

# Built for Everyone in the Ecosystem

TripOnTip empowers every stakeholder—parents, schools, and drivers—with purpose-built tools.

## For Parents — Peace of Mind, Instantly

- ✓ Live child tracking with precise vehicle approach alerts
- ✓ Instant pickup, drop & delay notifications
- ✓ Direct in-app messaging with transport admins
- ✓ Digital QR ID card for secure boarding with geo-fencing
- ✓ One-tap leave & schedule change requests
- ✓ One-tap call to driver during active trips

## For Schools — Operational Excellence

- ✓ Automated daily routing & trip generation via cron
- ✓ Live fleet monitoring with geo-fencing alerts
- ✓ Automated RTO compliance & vehicle document tracking
- ✓ Comprehensive vehicle, route & driver management
- ✓ Centralized org & system-wide announcements
- ✓ Real-time dashboard with trip stats & document alerts
- ✓ Schedule management with clone & conflict detection
- ✓ Trip deviation & exception monitoring

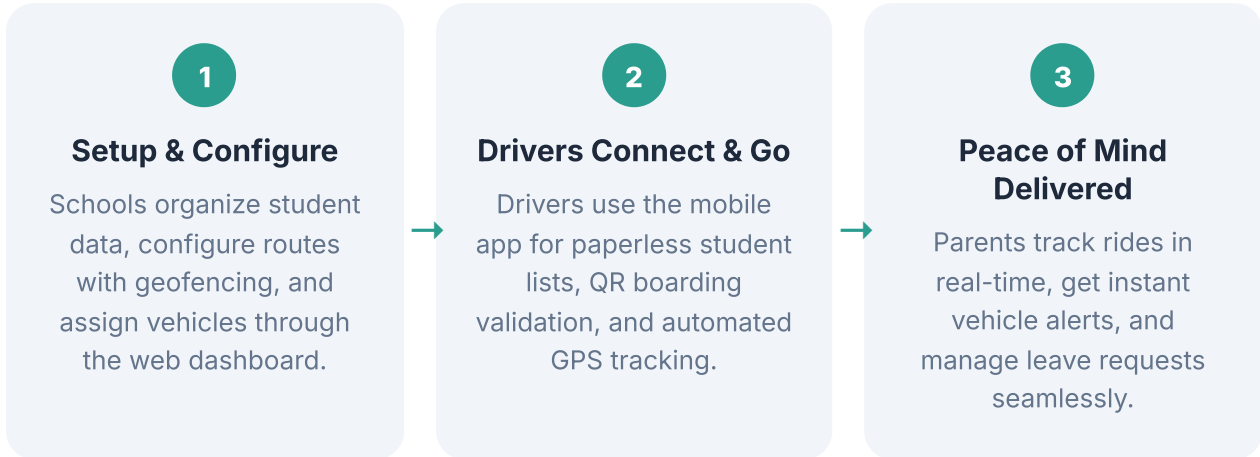

## For Drivers — Smart & Paperless Operations

- ✓ Smart dynamic student lists (100% paperless)
- ✓ Instant offline QR code boarding validation
- ✓ Automated GPS tracking & status updates
- ✓ One-tap SOS & emergency assistance
- ✓ Seamless offline mode for low-network areas
- ✓ Auto-sync queued data when back online

GETTING STARTED

# Up and Running in Less Than 24 Hours

Three simple steps to transform your school's transport operations.

COMPLIANCE & SECURITY

## Built for India's Regulatory Landscape

### DPDP Act 2023 Compliant

TripOnTip acts as Data Processor; schools as Data Fiduciary. Verifiable parental consent flows built-in. Zero data sold to third parties.

### Automated RTO Tracking

Auto-track vehicle insurance, permits, PUC certificates, and driving licenses. Get alerts before documents expire. Stay always compliant.

### Enterprise-Grade Security

AES-256 encryption at rest, TLS 1.3 in transit. All data stored on Indian servers. Role-based access control with row-level security.

### Offline-First Architecture

QR scans and GPS data are encrypted locally, queued securely, and auto-synced when connectivity returns. Works in the most remote areas.

# Ready to Modernize Your School Transport?

Join schools across Bhubaneswar that are replacing paper registers with automated, compliant, and transparent transport operations.
